We understand how stressful it can be to balance caring responsibilities with work, often in addition to other commitments. As an organisation that is dedicated to looking after our people, we want to make you aware of Legal & General's Care Concierge Service.

The service is available to employees in the UK, covering England, Scotland, Wales and Northern Ireland. You can access information online, and via a confidential phone line with a care expert who can guide you every step of the way.

Your care expert will be able to assist with any adult or later life care questions, whether you are planning ahead for yourself or supporting a loved one.

They can provide information on: care funding options, finding care, benefit entitlements and much more.
